

312 UltraBox™

The 312 UltraBox is a water tight all weather mini-briefcase. With an interior that is only slightly larger than a standard letter, it is deep enough to protect important documents, electronic tablets, phone, camera, etc. Accessory pluck-out foam pad layers can be added to adapt the case for sensitive electronics, gas analyzers, rf devices, etc. The o-ring seal will help to protect hand guns or special tools from rust and corrosive gasses. For OEMs a recessed frame will support an electronic instrument panel in the base.

Optional Rubber Handle

Rubber Feet

FEATURES

- O-ring sealed lid protects against moisture, dust and corrosive gasses.
- Dual purpose latches stabilize the lid and seal if dropped and automatically equalize interior pressure when opened.
- Twin 5/32 inch padlock loops.
- Non-slip rubber feet
- High impact ABS case protects contents from crushing and is field repairable or easily modified for special projects
- Snap-on nylon strap handle with contoured rubber grip
- Stainless steel hinge (full width) and latch pins
- Instrument panel frame in base with 8 screw holes for OEM electronics devices
- Proudly made in the USA
