

C4 eLED

The C4 eLED® waterproof light is our lightest weight primary light. It is designed to fit smaller hands while still offering brightness comparable to lights twice its size. Its water-cooled heat sink actually increases brightness underwater and improves burn time. For maximum illumination and a comfortable fit, the C4 is the perfect solution.

FEATURES

- A pair of water cooled high intensity LEDs delivers over 5 watts of power.
- Brightness maintained up to 40% higher underwater than in air with UK's unique LED water-cooling design.
- Full and half-power switch can extend batter life even more
- Power circuit control maintains almost constant brightness with alkaline or rechargeable batteries
- Light from the eLED® is close to sunlight in color and travels farther through water for maximum visibility
- Non-breakable locking switch prevents accidental actuation.
- Integral pistol style grip
- Front lens protected by heavy rubber boot for drop protection
- Tough, non-corroding ABS and polycarbonate plastic construction
- Rubber sleeve lanyard included
- Powered by 4 disposable Alkaline, Nicad or NiMH C/LR14-cells.
- With a 2.8 AHr NiCad Battery Pack and 10-hr Battery/Charger Kit, upgrade your light to a Rechargeable (High Capacity NiMH packs to be available early 2011)
- Proudly made in the USA
